AKSA POWER GENERATION is committed to establishing a framework for setting and reviewing energy objectives and targets, and to providing, reviewing, updating, and ensuring access to the information, resources, and support necessary to achieve these objectives and targets.

## **LEADERSHIP**

We are committed to improving energy performance by utilizing energy-efficient products, procuring energy-efficient services, and prioritizing energy efficiency in design activities.

We communicate and share relevant information with all stakeholders whenever necessary.

## **CONTINUAL IMPROVEMENT**

We are committed to continuously improving our Energy Management System and energy performance in a manner consistent with the purpose and scale of our organization, documenting it, communicating it to all employees, reviewing it regularly, and ensuring that it remains up to date.

## **EMPLOYEE PARTICIPATION**

We are committed to encouraging all employees to take responsibility for the continual improvement of quality and energy performance, obtaining their ideas and ensuring their active participation.

By providing energy-related training to all employees, we aim to increase energy awareness and responsibility throughout the organization, from senior management to every operational level.

## **COMPLIANCE WITH LEGAL REQUIREMENTS**

We are committed to monitoring all applicable energy-related laws, regulations, and other requirements and ensuring full compliance with them.

## **SUSTAINABILITY**

We are committed to reducing energy consumption, implementing continual improvements related to energy efficiency, putting these improvements into practice, and monitoring their results on an ongoing basis.
